Oberlander Site Walk

Present: Ann Dunnack, Shirley King, Paul Ramsey, Don Schofield, , Joan Hill

The committee walked the Oberlander property in order to score it as a potential open space consideration. This property owner is reported to be interested in selling and approached the town. As an integral part of the Wells Wood section of town and containing significant wet lands, this is a property that has always held interest for open space. The committee will meet to formally score the property but the overall consensus at the conclusion of the walk was that this is an important property for preservation.
