- 1. RULES OF CONDUCT FOR HYBRID VIRTUAL MEETING: Rules were not read. Zoom Meeting was cancelled due to technical issues and was changed to an in-person meeting only. It was noted that R. Szegda, FiPAC member and B. Wilson, Interim Superintendent were in the zoom wait room. They were contacted and opted out of participating in the meeting.
- 2. CALL TO ORDER: E. Sharpe called the meeting to order at 7:07pm.
- **3. PLEDGE OF ALLEGIANCE:** The Pledge of Allegiance was recited.
- 4. AUDIENCE OF CITIZENS: None.

### 5. APPROVAL OF MINUTES:

5.1 **FiPAC Meeting Minutes for July 19, 2023.** J. Viens MOVED to APPROVE the FiPAC Meeting minutes for July 19, 2023 with minor revisions discussed. E. Sharpe SECONDED the MOTION. MOTION CARRIED 5.0.0.

# 6. CORRESPONDENCE:

6.1 **BOE Draft Meeting Minutes 9/11/23**. J. Viens questioned the BOE need for the executive session for discussing the Parking Lot Design. He noted that he understood using the executive session for programming. B. Ciurylo said that she would follow up with the Interim Superintendent on this and would let FiPAC know.

# 7. OLD BUSINESS:

7.1 **Update on 2022-2023 Year End.** B. Ciurylo presented an updated Preliminary Reconciliation of the Fiscal Year 22-23 Fund Balance. This included a review of the reported surpluses of the 22/23 BOS and BOE General Fund Budgets as well as the 22/23 BOS General Fund Revenues. She reported that the projected General Fund balance was lower than the prior report and there is further reduction coming. An unanticipated BOE invoice for over \$20,000 had just arrived for the BOE 22/23 school year. A discussion ensued regarding this and whether there are controls in place to ensure contracted/known costs are encumbered. S. Cooke questioned if the auditors need to be informed about this. B. Ciurylo responded that the full audit is not until mid-October. There was a preliminary audit last month and the auditors were given preliminary reports. They will be updated once the financial reports are updated for this additional invoice. B. Ciurylo also noted that the change in fund balance also had to do with other year-end costs including the final payroll being posted since the prior reporting.

- 7.2 Update on Columbia BOE HVAC Project and Grant. M. Walter noted that there was little to report. There is a HVAC committee meeting on Monday, September 25, 2023 to meet with the contracted engineering firm Silver Petrucelli to get a status of work completed to date on the HVAC project as well as to select the environmental study to be completed. There are three options being presented. The project will involve looking at an indoor air quality/HVAC system for the entire school as well as the electrical upgrade. E. Sharpe noted that the Town has already allocated \$499,000 for this project and asked the purpose of those funds. M. Walter noted it was for the initial design and engineering costs. He also noted that with the size of this project, the Town may need to look at bonding. The state has opened up another round of HVAC grants with a deadline of December 31, 2023. Silver Petrucelli has a deadline of October to have information available so that the Town can go out to bid and have solid numbers for the application.
- 7.3 **American Relief Fund Projects.** B. Ciurylo provided FiPAC with an updated spreadsheet of all American Relief Fund Projects. M. Walter provided updates on the current projects, such as, the CVFD Command Vehicle, Senior Center sidewalks and the DPW Dump Truck replacement.
- 7.4 **23/24 Capital Projects and Long-Range Outlook for Town and Board of Education.** M. Walter noted that Capital Projects are being reviewed, such as, HVAC controls for the Senior Center which is partially being funded by a state grant as well as a HVAC repair in the Land Use department. He briefly discussed the Hunt Road Culvert project which may need additional funding depending on engineering/project oversight costs by the Town Engineers. E. Sharpe noted that the long-range outlook will need to be considered for the upcoming budget season, especially with potential future capital projects; such as, the Porter School HVAC project and a possible Porter School Parking Lot project.

### 8. NEW BUSINESS:

- 8.1 **Planning Discussion on the 24/25 Budget Process**. E. Sharpe recommended that the FiPAC members should start considering which departments they would like to receive budget presentations. No further discussion ensued.
- 8.2 **FiPAC Post Election Leadership Transition**. E. Sharpe noted that his term on FiPAC is ending after the elections and noted the members whose terms are ending and up for election. Since J. Viens is the Vice Chairman, he will probably

be the acting chair until the new FiPAC board has an election, probably in January.

E. Sharpe asked if there were any legislative updates. B. Ciurylo mentioned the age change for kindergarten could have any impact on the PreK program and that the District is looking at its programming. B. Ciurylo also mentioned that the minimum wage may be increasing which may have some impact on the 23/24 budget.

# 6. OLD BUSINESS:

6.1 Lake Management Advisory Commissions Proposed Updates to Lake Town Ordinances. Discussion involved the clarification and update on the grandfather clause, enforcement of penalties, the application of the "reckless and unsafe" standard, and use of drones.

S. Everett asked if anyone is currently using a boat or watercraft on the lake, does this then mean that it's grandfathered forever.

H. Beck, 41 Sleepy Hollow Rd., Attorney with Halloran & Sage, and member of LMAC said that currently in the draft there is a blank to put in the number of years. He said it is all right to have an ordinance that makes it applicable

immediately, but then accepts certain circumstances that have existed for a period of time and allow them to continue for some reasonable period of time.

H. Beck said the reason to do this is to guard against the concept of unjust taking of somebody's property by a government because of the fact that suddenly they go from being able to use their property to not being able to use their property. H. Beck said research could be done to determine the length of time that is appropriate (6 to 8 months), or the Board of Selectmen could determine that it's for as long as a particular owner wants to own the boat and maintain it.

Enforcement of penalties: The First Selectman position is considered the 'police chief' position, and they should be involved in penalty decisions. S. Everett explained we do have a Citation Hearing Officer if a person wishes to address any recourse.

S. Everett read the answer on what is considered reckless or unsafe. The application of the "reckless and unsafe" standard generally is viewed as leaving some discretion with the enforcement authority to determine based on the circumstances of each incident.

H. Beck explained that recklessness is an imprecise standard which allows discretion on behalf of the reviewing authority to determine what conduct amounts to a violation. Generally, recklessness means the creation of a substantial and justifiable risk of harm, and it requires conduct demonstrating a conscious disregard or indifference to such risk.

Connecticut motor vehicle statutes do not define reckless driving. The Supreme Court of Connecticut has held that recklessness in the operation of a motor vehicle requires the conscious choice of action either with knowledge of the serious danger to others involved or a knowledge of facts which would disclose this danger to any reasonable person.

H. Beck said it is a fairly high standard, but it does give discretion in this instance the First Selectman determines whether it arises to such a level that it's in the public interest that the citation be issued.

S. Everett asked about the use of drones and asked for clarification on how they would enforce this.

M. Roickle, 34 Erdoni Road and LMAC member said that we have always prohibited remote-controlled types of water traffic, which we have deemed to be dangerous to public health. She said that on DEEP's website information is provided on the use of remote-controlled model aircraft or drones and are prohibited at Connecticut State Park or in other lands under control of DEEP unless specifically authorized by the Commissioner. She said, we are suggesting to DEEP that because they manage the waters of all of Connecticut, including Columbia Lake, would they allow the prohibition of drones other than commercially operated. Commercially operated would have to be authorized by the Commissioner.

M. Gnazzo said in order for a commercial drone operator to operate a drone they have to have a license and the FAA has to give them a permit.

Discussion ensued about enforcing the rules on drone use.

H. Beck said this could be amended to read drone use is prohibited without proper authorization.

Discussion ensued about the grandfather clause and how it would affect a houseboat that is currently on the lake. H. Beck explained that he believed that the determination was made that the boat was not a violation of the statute because it was not a houseboat. As long as it remains not a houseboat then it would be grandfathered. If it clearly becomes a houseboat under the new ordinance it would be illegal because it's changed.

H. Beck said that to get the ordinances ready for next summer it would be helpful to start the informal review with DEEP.

S. Everett asked LMAC to make the changes and get them back to BOS.

6.2 Approval Explanatory Text for the Town-wide informational mailer regarding the HVAC Horace Porter School Project. M. Walter explained that the explanatory text is still being worked on. A postcard was provided to the BOS that will be mailed out to residents to explain about the project.
