## **Site Walk Minutes 22 A Lake Rd**

**Members Present:** John Allen, Carol Ann Jaswinski, Ian Dann, William Ross, Ron Wikholm.

**Also Present:** Mr. Robert Millard who lives at 22 Lake Rd.

The meeting started at 7:58 AM. Mr. Millard took us to the seawall and showed us the areas of the seawall that will be repaired. Two areas on each side of the newer dock and one area on the Northeast side of the "U" shape section of seawall where it had bowed out. The wall will follow the same location as the current one. A new dock on the West side will replace the current one that is located there. It will be similar to the one on the East side of the property. The dock support will be cylindrical concrete with the wooden framework pinned. Mr. Millard will provide additional information on the application at the next meeting.

The site walk ended at 8:11 AM.
