Submitted by
Phyllis Dunn
Secretary /LMAC

2/7/19

I spoke with Paula Stahl. The proposed changes to the Lake Overlay Zones are on hold as P&Z works on revising other regs.

She will make some additional changes to them in accordance with Henry Beck's mark-ups and our discussions concerning the nutrient allocation plan. Specifically, the way the first 1" is described/handled. She will then put it on an agenda for P&Z and will probably have Dr. Kortmann come to discuss with the commission.

She will be sure that LM&C is informed when things start moving again, but it will be several months.

We also discussed the spreadsheet that she is working on and once it is finalized, she intends to have it tested by laymen.

Dan O'Neill
