

Sustainable Columbia

Sustainable CT is a voluntary certification program to recognize thriving and resilient Connecticut municipalities.

Sustainable CT provides a wide-ranging menu of best practices. Communities choose Sustainable CT actions, implement them, and earn points toward certification. These actions include:

- **Environmental Impacts**
- **Economic Well-Being**
- **Cost Savings**
- **Community Building**
- **Health and Wellness**

Survey for Farmers Market

The Columbia Sustainable Team would like your feedback and interest in a Farmers Market. The team is only in the planning stages of this initiative, but we need your feedback/interest to move forward with the project.

The first market would begin this fall in September. In the second year the market would be held on the second Saturday in June, July, September and October.

The location would be at the Columbia Town Hall, both inside Yeomans Hall and out in the parking area. We would close-off traffic coming into the Town Hall that day. Only vendors would be all allowed in until one hour before opening. Parking would be at Porter School. We would rent out spaces with very competitive prices. We plan on having a diverse group of agricultural products available to the public. Our local farmers would have preference. We would offer spaces to them first, then open it up to other farmers from the area. We are also considering having food trucks.

Please take a moment to take a quick survey by clicking on the link below or scan the barcode to take the survey.
